

OUR MISSION

The mission of Blue Fire Stage Company is to build a collaborative, diverse, and accepting community through the arts and arts education. We look forward to astounding our audiences with high quality performances and theatrical experiences.

ABOUT US

There is nothing that compares to the excitement of bringing people together to share in the collective experience of live theater. Blue Fire Stage Company is such a gathering place . . . where creativity, collaboration, and education come together to enrich our community and make the arts accessible to all.

Our goals at BFSC are to produce exceptional performances and provide classes and workshops that teach skills in all areas of theatrical arts. We are especially excited to offer an apprenticeship program which will provide students with hands-on training from theatre professionals in areas such as set design and construction, pit orchestra performance, stage management, and much more.

Blue Fire Stage Company is a 501(c)(3) nonprofit organization. Contributions are tax-deductible as allowed by law.

BLUE FIRE was originally the name of a special effect used in Victorian theaters in which a mixture containing sulfur was ignited to create an eerie blue glow on stage. The effect so amazed Victorian audiences that the term “blue fire” was used to describe anything equally sensational, or that astounded an audience.
